

🔔 CampIn is opening soon

India's outdoors, verified.

CampIn is building the trust layer for camping in India: permissioned places, own-tent stays, road-stop intelligence, real washroom/water checks, and a community that helps first-time campers feel ready.

📅 90-DAY PROOF GATE

We launch the marketplace only after proof.

500

email subscribers

100

high-intent campers

30

host applications

10

candidate sites

3

manual attempts

1

paid pilot stay

This keeps CampIn from becoming a fake inventory site. We validate demand, qualify hosts, then run manual pilots before payment and booking automation.

Campers

Tell CampIn where you want to camp, what scares you, and whether you have your own gear.

Hosts

Apply with a private farm, estate, homestay, orchard, terrace, or quiet land parcel.

Road stops

Suggest safe overnight stops with parking, washrooms, water, power, and a local contact.

Community

Join the trust-first WhatsApp and newsletter loop before CampIn becomes a booking engine.

Lead capture machine

Three forms decide what CampIn becomes first.

CampIn should capture demand, supply, and route infrastructure before spending energy on a heavy booking engine. These forms save locally now and are structured for Tally, Airtable, and later Supabase.

✓ No instant bookings until verification and legal pages are ready.

✓ Every listing must separate verified, host-declared, community-reported, and unknown claims.

✓ Bangalore, Coorg, Wayanad, Chikmagalur, Ramanagara, and Kanakapura are the first validation wedge.

✓ The first pilots are manually matched so CampIn learns before it scales.

Camper waitlist

Find safe, permissioned camping first.

Captures the exact fields needed to score early demand before building booking flows.

🔥 Road Stop Standard requires parking, washroom, water, and local support. Power improves the score but cannot replace safety.

Capture road-stop lead →

The Campfire by CampIn

Weekly camping intelligence before the marketplace.

Routes, safety notes, verified-host progress, road-stop mapping, and one community question every week.

First region

Bangalore and South India first.

This wedge is narrow enough to validate quickly and large enough to matter: Bangalore weekend campers, Coorg coffee estates, Wayanad hosted land, Chikmagalur escapes, Ramanagara/Kanakapura day-to-night trips, and road-stop routes between them.
