[Website](#) [Founder / Product](#)
☐

Review legal drafts with counsel before collecting payments or confirming paid pilots.

[Needs proof](#)
[Legal](#) [Founder](#)

☐ **Add community, supply quality, trust, SEO, and liquidity metrics to Airtable dashboards.**

Live locally Metrics Founder / Ops

☐ **Create Airtable Outreach Desk from data/outreach/daily_outreach_template.csv and track every candidate by source, score, stage, and compliance note.**

Ready to connect Outreach Founder

☐ **Connect Gmail, Instagram, and WhatsApp Business as manual founder channels; send only approved personalized messages.**

Needs account Outreach Founder

Free Tool Stack

Tally Forms

Ready to connect

Camper waitlist, host interest, road-stop lead, and safety survey forms.

data/forms

Upgrade trigger: Custom domain, team collaboration, data-retention controls, or email verification.

Airtable Free Database

Ready to connect

Research OS, host leads, road-stop leads, content tracker, and validation pipeline.

data/research/schemas

Upgrade trigger: Record limits, automation limits, interface limits, or multi-user workflow complexity.

Brevo Free Newsletter

Ready to connect

The Campfire list, welcome sequence, and weekly newsletter sends for consented leads.

data/newsletter

Upgrade trigger: Daily send cap, Brevo branding, advanced automation, or deliverability needs.

WhatsApp **Community** Community

Ready to connect

Founding Bangalore/South India community, host group, road-stop group, and announcement channel.

Docs/Business/CampIn_Community_Platform_And_Growth_OS.md

Upgrade trigger: Need dedicated community ops, moderation tooling, or WhatsApp Business API workflows.

Gmail + **Instagram** **Manual Outreach** Outreach

Ready to connect

Founder-led host, road-stop, and community outreach using daily draft queues.

Docs/Business/CampIn_Outreach_Operating_System.md

Upgrade trigger: Move to sequencing tools only after reply quality and consent discipline are proven.

Markdown + Notion Operating docs

Live locally

Strategy docs, founder notes, SOPs, design rules, and content calendars.

Docs

Upgrade trigger: Team permission complexity, guests, or advanced knowledge-base collaboration.

Google Drive File proof

Needs account

Host photos, permission notes, route screenshots, and local proof folders.

brand, Docs, data

Upgrade trigger: Need app-integrated uploads, signed URLs, or structured storage.

Search Console + GA4 Analytics

Paused

Indexing, query monitoring, and page behavior after a public site exists.

Docs/Business/CampIn_SEO_AEO_GEO_Briefs.md

Upgrade trigger: Only add paid analytics after real traffic and privacy needs are clear.

Legal Docs Compliance

Live locally

Terms, privacy, cancellation, community guidelines, host agreement, pledge, verification, and grievance drafts.

Docs/Legal

Upgrade trigger: Legal review before payments, marketplace launch, or insurance commitments.

Codex Automations Automation

Live

Weekly intelligence, validation review, host enrichment, SEO briefs, newsletter draft, and UX QA.

data/workflows/agentlic_workflows.json

Upgrade trigger: External API integration, CI/CD, or account-level workflow orchestration.

Next Founder Actions

- 1 Create the four Tally forms using the local schemas and paste the form links into the Ops Center notes later.
- 2 Create the Airtable Research OS base and import the seed CSVs.
- 3 Create the Brevo list and welcome sequence, but import only consented emails.
- 4 Create the WhatsApp Community with Bangalore Core, South India Routes, Founding Hosts, Road Stops, and Announcements groups.
- 5 Create the Outreach Desk and start founder-approved daily host/road-stop outreach from public business sources.
- 6 Pick 20 Bangalore/South India camper communities to observe compliantly before outreach.
- 7 Shortlist 15 host or road-stop candidates and run founder calls.
- 8 Build 5 content assets and 5 short-form video content ideas from scratch.

WhatsApp, Instagram, newsletter, referral, and GSC signals with next community action.

Legal And Domain Readiness Review

Monthly 1st Mon 15:00 IST

Legal page, consent, domain, analytics, and paid-pilot readiness gaps.

Daily Outreach Drafts

Daily 09:30 IST

10 researched candidates, 5 personalized drafts, lead scores, and compliance notes.

UX QA And Icon Review

Sat 11:00 IST

Build/UX/icon QA and small safe fixes when appropriate.

8 Run 5 camper tests and 5 host tests using the validation forms on mobile.

9 Review the legal drafts before any paid pilot and publish the required policy pages before public launch.

10 Turn the first verified pilot into a newsletter issue and SEO page brief.

CampIn

India's outdoors, verified

India's verified camping and road-stop platform.
Built for private land stays, safe route stops, and the community that makes first-time campers confident.
